and City Securities bought and sold.

**Council Bluffs Loan and Trust Company.**

First Mortgage Loans Negotiated. Commercial Paper and All Good Securities dealt in. Street, and 508 First Avenue, Council Bluffs.

**FINANCE AND COMMERCE.****FINANCIAL**

**NEW YORK**, February 2.  
Money—Easy at 1 1/2 per cent.

Prime Paper—1 1/2 per cent.

Exchange Bills—Firm; 4 1/2%; demand, 4 1/2%.

Governments—Firm.

Stocks—Not since October last have sales at

the stock exchange reached the total attained

to-day, 685,807 shares having changed hands.

From the opening until the close of business

the tendency of prices was upward; the reactions

which occurred at intervals have brought in buyers, caused rapid recoveries.

The bulls were in full control. The smaller

bears have generally covered, and are now on

listed on the bull side, but the large bears are

still heavily short, as borrowing rates for

stocks plainly indicate to-day. Oregon Navigation

commanded a 1 per cent premium for

use, and others as high as 1 1/2 per cent. The

activity and excitement surpassed anything

that has been witnessed on the stock exchange for

a long time. The dealings in some of the

leading shares were on an enormous scale,

Union Pacific leading with 129,000 shares—an

unusually large total for any stock. Advances

ranged from 3 to 3 per cent, and extended

throughout the entire list. The great features

of the market were Union Pacific, Western

Union, Missouri Pacific, St. Paul, Lake

Shore, and the low-priced southwest shares.

The rise was started under the leadership of

the Union Pacific, which advanced from 700

to 82. Western Union followed closely, and

rose from 700 to 770 on a business of over 50,

000 shares. The movement in this stock to-day

developed the fact that the recent attacks

on it from the officials of opposition companies

has created a very heavy short interest,

which has yet to be covered. Missouri Pacific

advanced sharply, selling up from

91 to 92, and closed at the highest point of

the day. The dealings in St. Paul were large

at steadily advancing prices, rising from 90

to 92. Several prominent bears were twisted

on this stock to-day. Northern Pacifics were

active and higher, common advancing from

22 to 23, and preferred from 47 to 49.

Late in the afternoon there was a reaction of

from 1 to 1 1/2 per cent, owing to sales by

the smaller class of traders; but closing firm.

As compared with last night's closing, prices

are from 1 to 2 1/2 per cent higher. The

sales to-day represent nearly four hundred

million dollars. The granger stocks were

favoredly affected by the report that at the

meeting in Chicago on Monday a proposition

will be submitted by Clark, of the Union Pacific,

which it was understood that the Bur-

lington would in all probability accept.

The Mail and Express says: "The great

strength of the market is due not only to the

wealth and brains of the street now solid-

ly arranged on the bull side, but also to the

many signs of improvement outside of Wall

street."
